

INTRODUCTION AND CONTRIBUTING TO WIKIPEDIA

A) WHAT IS WIKIPEDIA?

=> Wikipedia is an online free content Encyclopedia project helping to create a world in which everyone can freely share in the sum of all knowledge. The project is supported by the Wikimedia Foundation and based on a model of freely editable content. The name "Wikipedia" is a blending of the words wiki (a technology for creating collaborative websites, from the Hawaiian word wiki, meaning "quick") and Encyclopedia. Wikipedia's articles provide links designed to guide the user to related pages with additional information.

Jimmy Wales and Larry Sanger co-founded Wikipedia as an offshoot of an earlier encyclopedia project, Nupedia, in January 2001. Originally, Wikipedia was created to provide content for Nupedia. However, as the wiki site became established it soon grew beyond the scope of the earlier project. As of January 2015, the website provided well over five million articles in English and more than that number in all other languages combined. At that same time, Alexa ranked Wikipedia as the seventh-most popular site on the Internet. Wikipedia was the only non-commercial site of the top ten.

It is consistently one of the 15 most popular websites ranked by Alexa; as of 2021, Wikipedia was ranked the 13th most popular site. It is hosted by the Wikimedia Foundation, an American non-profit organization funded mainly through donations. In Wikipedia there are 325 is available.
